

## Grateful Missionary Parents!

Dear NCF Supporters,

This year our registration for MK ReEntry opened on December 10<sup>th</sup>, and by January 1<sup>st</sup> all 42 spots were filled! I don't ever recall filling up so quickly. It confirms the vital role the program continues to play in serving missionary families who send their MKs to us for 12 life-giving days! In an email from a family serving in West Africa, one mom wrote:

*"As we reflect on 2025 and the many ways God has blessed our family, the MK Re-entry program is near the top of our list. We are deeply grateful to you and your staff for the compassionate, empathetic, and thoughtful care you showed our daughter.*

*We were especially impressed by how genuinely in tune your team is with the realities of TCK life, both the joys and the challenges. You met Anna exactly where she was and equipped her with practical tools that helped her step confidently into a new chapter.*

*She has just completed her first semester at university in a very demanding program, and she is truly thriving, far beyond anything we could have imagined. We give God all the glory for the way He has set her up to succeed, and we*

*know that much of her growth can be traced back to those 12 impactful days at the re-entry program. She has applied what she learned with wisdom and grace and now carries a strong, grounded sense of identity as a TCK and as a child of God living in her passport culture.*

*It is so beautiful and humbling to watch! It brings tears to my eyes as this has been such a heavy burden and fear in our hearts of how our decision to serve cross-culturally would affect our kids long-term. You guys have been a lifesaver and helped Anna embrace her upbringing as she steps into this next chapter of her life.*

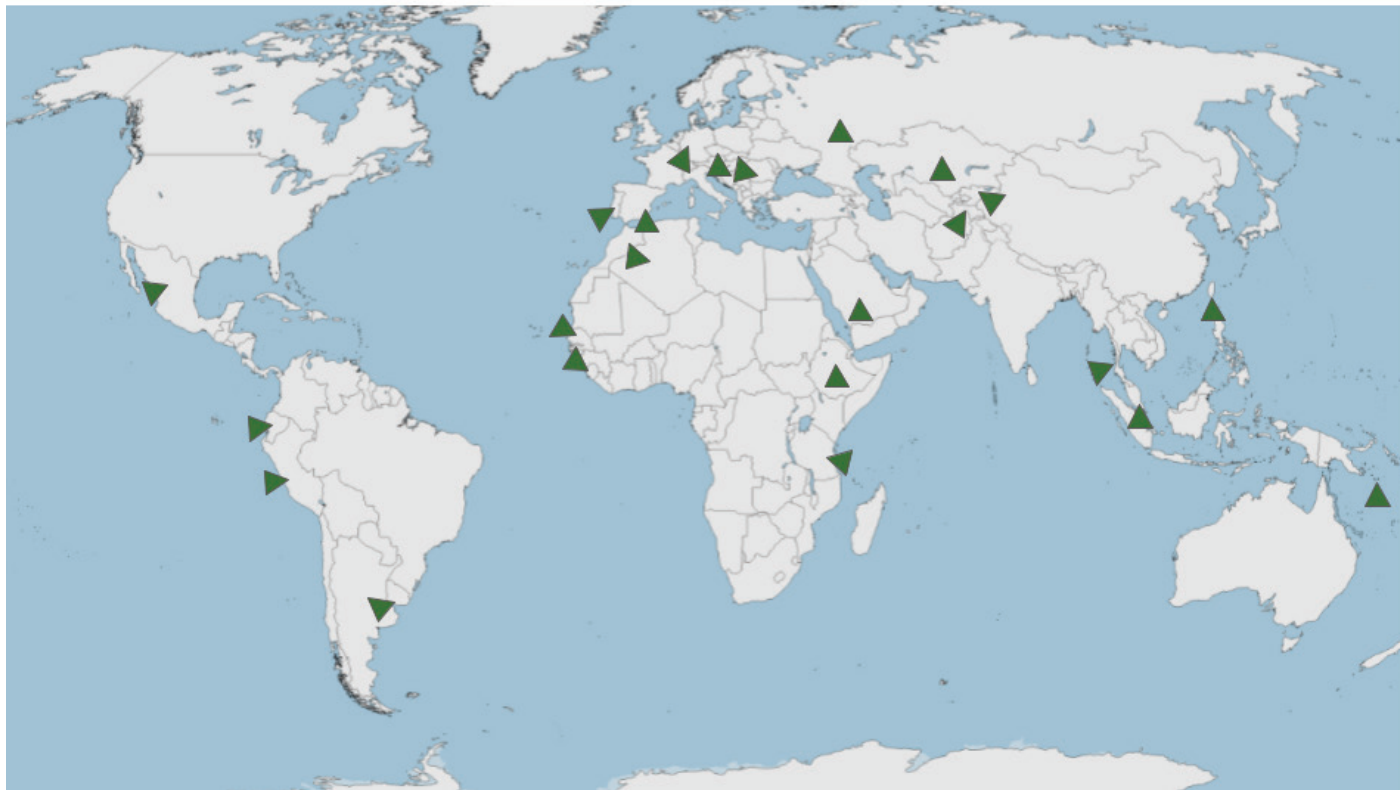

*Thank you again to each of you who played a role in those two weeks. We are also so thankful for your dependence on prayer and for inviting us as parents to join you in specific prayer requests during those two weeks. Please share our heartfelt thanks with your entire staff, and let them know that Anna is thriving beyond our expectations in many ways, thanks to many of you!!"*

Another parent wrote: *"This is just a quick note to thank you and let you know others see how valuable your work is. We were talking with our son the other day and he mentioned that you helped him connect with some potential counselors. This is not the first time your name has come up over the years in conversation with both of our sons. They were in ReEntry back in 2016 and continue to be blessed by that experience and their interactions with you. Thank you for blessing our family!"*

Missionary parents share every parent's desire for the growth of their emerging adults, but part of their sacrifice is supporting them from SO far away! I just read the biographical sketches written by the 42 missionary kids who will attend MK ReEntry this coming July. They share the hopes of their parents to learn how to live well in the U.S., grow in their faith, and discern how to integrate their cross-cultural upbringing into their future. We love seeing God at work in these very ways!

The map below highlights where their families are serving around the world. Thank you for the care you give to missionary families when you support their children by partnering with us to provide MK ReEntry each year!

Join us again in praying for the MKs and their parents as they spend their final months together in the countries above before moving to the U.S. We give glory to our loving Father who cares for and loves these families even more than we do!

**Please give now to this vital ministry.**

**Your gift will bless each MK who joins us this year!**

With gratitude for your partnership,

*Debbie Hewitt*
